

# Aesculap Neurosurgery Sonastar XS-E Ultrasonic Aspirator System

Expertise in neurosurgery

- Simple, powerful operation
- Electro surgery compatible
- Ergonomic, lightweight handpieces
- Bone shaving capability

# Sonastar XS-E

Sonastar XS-E Surgical Aspirator is a premium surgical aspirator in every sense of the word—offering surgeons and O.R. personnel the very best of everything:

- Performance that outpaces the competition
- Multi-functional handpieces with electro-surgical and bone shaving capabilities
- Slim profile housings for comfort, greater visibility to the surgical site and increased access to small anatomies
- A wide variety of surgical tips to meet the requirements of the procedure
- Color-coded tubing to simplify the setup process
- Auto set-up with the push of a button
- Intuitive, easy-to-use control panel allows easy adjustment of aspiration, irrigation and vibration levels
- Pre-Set or Linear Mode operation based on surgeon preference
- Advanced, upgradeable technology

**With Sonastar XS-E, Aesculap has redefined the standard for power, performance and ease of use.**

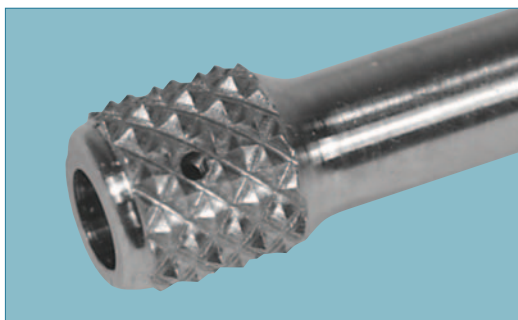

Modern and easy-to-use control unit

New slim profile handpieces are capable of simultaneously providing ultrasonics and coagulation function

Optional long curved probe to enable deeper access and support minimally-invasive procedures.

Optional tips for bone shaving
