

*Specifications**

Physical Characteristics

Delivery System Length
9.5 inches (24.1 centimeters)

Maximum Laser Input Power and Energy

Up to 150 watts continuous (< 30 seconds)
Up to 1 joule pulse energy (<2 milliseconds)

Compatible Wavelengths

Treatment
10.6 micrometers

Aiming
635 nanometers (nominal)

Spot Size

Collimated, 2.25 millimeters

Pattern Dimension

0.1 millimeters to 25 millimeters

Single Full Pattern Exposure Duration

<1 second

Laser Power Transmission

>80% of treatment beam

Laser System Compatibility

Coherent family of UltraPulse surgical lasers

Laser Safety Eyewear

Carbon dioxide laser wavelengths
Coherent part number 0617-008-01

Smoke Evacuation Tubing

7/8 inch (≈22 millimeter) I.D. (inner diameter)
