

The SLT Nd:YAG Laser

Ideal for ENT-H&N Procedures

The CL MD/110-25W Laser connects into any 20 Amp, 110 VAC electrical outlet and delivers from 1 to 25 watts of power to tissue. This power range is suitable for all of the ENT-Head & Neck procedures described in this brochure, whether performed in the office, surgical suite or hospital.

The portable, compact CL MD/110-25W features an instructional control panel for ease of use and minimal training. The laser is completely self-contained, has a small footprint and weighs less than 250 pounds.

Other key CL MD/110-25W features include:

- Upgradeability to 40, 60 or 100 Watts for investment assurance
- Compatibility with SLT's entire family of Contact Laser and Side-Firing Free-Beam Probes for multi-specialty utilization
- Proprietary SLT and SMA-905 interfaces for broad compatibility
- Flexible purchase, lease and lease/purchase programs
- Turnkey Per-Procedure and Short-Term Rentals through the MEDIQ PRN/SLT Laser Surgery Assurance Program*
- Complete service and support capabilities for lasers and delivery systems.

* Not available in all areas. Contact SLT for details.

Unmatched Versatility and Control

Multi-procedural utility, broad compatibility, flexible purchase/rental programs and comprehensive support make the SLT Laser System an indispensable complement to any surgeon's practice. For additional information, contact your SLT Laser Utilization Specialist or telephone 1-800-366-4758.

Multi-Specialty

The SLT CL MD series laser can be used with more than 70 SLT Fibers, Probes, Scalpels and Handpieces in virtually all surgical specialties.

SLT's multiple laser and delivery systems options provide hospitals a true multi-specialty surgical device for use in the following surgical specialties:

- ENT, Head & Neck
- Urology
- Gynecology
- General Surgery
- Gastroenterology
- Orthopedics
- Pulmonology
- Ophthalmology
- Neurosurgery
- Plastic Surgery
- Thoracic/Cardiovascular
